Week 2: Revision Exercise

Question 1: Select the correct answer for each question

1. A chart, graph or text printed on paper is called a
 - A. Hardware
 - B. Software
 - C. Soft copy
 - D. Hard copy
2. Pixels are associated with
 - A. Sound
 - B. Speech
 - C. Graphics
 - D. Brightness
3. The best quality graphics is produced by a
 - A. Laser printer
 - B. Plotter
 - C. Inkjet printer
 - D. Dot matrix printer
4. LCDs are used in
 - A. Portable computers
 - B. Minicomputers
 - C. Mainframe computers
 - D. Supercomputers
5. Which one of the following devices has the fastest printer speed?
 - A. Dot matrix
 - B. Inkjet printer
 - C. Laser printer
 - D. Plotter
6.device allows us to enter data programs and commands into a computer
 - A. An output
 - B. A computer
 - C. A system
 - D. An input
7.device carries information to us.
 - A. An output
 - B. A computer
 - C. A system
 - D. An input
8. Output devices that emit sound are the
 - A. Speakers and headsets
 - B. Printers
 - C. Scanners
 - D. Monitor
9. The most common type of device for producing hard copy output is the
 - A. Plotter
 - B. Speaker
 - C. Printer
 - D. Monitor

10. A Central Processing Unit(CPU) contains
- A. A control unit and an arithmetic/logic unit.
 - B. An arithmetic logic unit and a card reader.
 - C. An analytical engine and a control unit.
 - D. A card reader and a printing device.

Question 2:

Indicate whether the following statements are True or False.

- a) A plotter is an input device.
- b) A VDU can display both graphics and text.
- c) Another term for output device is a scanning.
- d) You can see the dots very clearly in near letter quality print.
- e) Speakers are used to input sounds in the computers.
- f) Hard copies are produced by printers.
- g) A keyboard is the most common output device.

Question 3:

Fill in the blanks with the most appropriate words given below.

Output	Audible	Pixels	Visual Display Unit	
Dpi	Data	Ppm	Plotter	
monitor	System unit	CPU	Resolution	monochrome

- a) The information we get from the computer is called the
- b) Monitor is also known as
- c) Data typed using the keyboard can be seen on the
- d) The quality of the picture displayed on the screen is dependent on the screen.
- e) Printer resolution is measure in
- f) The speed of the laser printer is measured in
- g) Aproduces its output using pens.
- h) A speaker is used to produceoutput.
- i) A black and white monitor is called

Question 4:

Write down one sentence to show why computers are used at each of the following places.

- a) At school:.....
- b) In Banks:
- c) At home:
- d) In Airports:
- e) In Supermarkets:

Question 5:

Define the four types of alignment:

- Left align:

.....

- Center Align:

.....

- Right Align:

.....

- Justify:

.....
